

Rule for Gardening at EWC Community Garden

1. Plots are assigned on a per-semester basis, but **you may keep your plot as long as you actively cultivate it.** Plots are available, at the discretion of the EWCPA in collaboration with EWC Facilities, to EWC participants and staff, and to residents of Hale Manoa and Hale Kuahine.
2. For the sake of other gardeners, **please keep your plot free of weeds.** Paying short but frequent visits to your plot is more effective than infrequent long visits. If a plot becomes overgrown community garden coordinator may give a warning or reassign the plot to another user if no action is taken.
3. **Please notify the coordinator if you will be unable to tend your plot for a long period of time,** or will have your friend tend the plot for you. The communication between the gardeners and coordinator is important to keep each plot assignment.
4. **Please compost weeds in one of the designated compost bins,** not in other people's plots. *HK residents: Small compost pails are located in both HK kitchens. When they are full, please assist with emptying them in the larger green bins in the garden (please rinse them afterwards).
5. **Plot boundaries are pre-determined** by the community garden coordinator in collaboration with EWC facilities. If you wish to redefine the boundaries of a plot, you must first obtain permission, so that the change can be added to the current plot map. Construction of any kind on the plots should be cleared first with the coordinator.
6. **EWC Community Garden is an organic garden!** Please, do not use any chemical fertilizers, pesticides, or herbicides. Also, please try not to use genetically-modified seeds or plants.
7. **Unattended watering is not permitted,** due to the scarcity of water on Oahu. Please, try to water in the late afternoon or early morning, for best results. When finished watering, turn water off at the spigot, then drain the hose – turn the valve below the spigot off and leave the hose fixture open so there is no pressure on the hose when not in use. Thank you for helping to maintain the hose.
8. **Please clean and return tools to the storage after use.** Tools may not be taken from the gardens. Please do not borrow any tools for use elsewhere.
9. EWC community gardeners are **encouraged and expected to participate in any garden events or activities.** For example, Garden gleaning day, cleaning day, harvesting communal crops, BBQ ... etc.
10. **Have fun gardening!** Contact for coordinator for questions and information regarding organic gardening.

I, _____ have read the Rule for Gardening at EWC Community Garden.
